

SPIRIT WEEK: PERSPECTIVE OF THE STUDENTS

This year's Spirit Week had similar reactions among the students about how the week developed and the days of Spirit Week. The week consisted of Gold and Blue Day, Tacky Tourist, Formal Day, Jersey Day, and then the Class Color Day for the pep rally. The week had two days from the previous years that had reentered the cycle being Tacky Tourist and Formal Day; Tacky Tourist being a day that not many enjoyed. Many students believe the days should be relatively easy to participate in, in which Tacky Tourist is not as easy and not as fun to students. Among students the general thought that this year's Spirit Week had a higher participation rate than the previous years when they were students. Although some students believe they have better ideas for Spirit Week days including a Pink Out Day in which we have had in the past; while others believe that we should try to

change up the days every year, to make it more spontaneous, where it is almost impossible to guess the days of the week from year to year.
